Biography

In 2006 I took a pottery class and spent the next 8 years perfecting my pottery techniques. In 2014 I stepped into the world of abstract painting. I developed my own style and techniques from a desire to eliminate wasting paint. My abstract expression has now begun to flow into my pottery glazing and my paintings are often becoming reflections of the patterns in the world around me. Creating art brings great joy to my life.

Artist Statement

Invitations & Chance Encounters

Invitations and Chance Encounters embrace the essence of Expressionism — letting the unknown unfold organically, without expectations — (despite, sometimes, the journey getting there)!
