## Education

- Self-taught acrylic abstract painting
- Minnetonka Center for the Arts
- Bachelor of Science degree in education, St. Cloud University

## Biography

In 2006 I took a pottery class and spent the next 8 years perfecting my pottery techniques. In 2014 I stepped into the world of abstract painting. I developed my own style and techniques from a desire to eliminate wasting paint. My paintings are often becoming reflections of the patterns in the world around me. Creating art brings great joy to my life.

## Artist Statement

### Blooming Beauties

Enjoying the many and varied greenspaces of the Twin Cities this summer, I began taking photos of flowers and gardens on my powerwalks.

The vibrant colors, textures and patterns captured in my photos inspired this series.

The title "Blooming Beauties" is a nod to the wondrous gifts from Mother Nature.

Artist's Note: All the pieces in the Blooming Beauties collection were created by collaging my original hand-painted paper onto wood panels before painting the floral images with acrylic.
